## COMPREHENSIVE INSURANCE PROGRAM

FOR YOUR EXPANDING BUSINESS

Security America RRG customers are not standing still. If you ask them, they will tell you that the services and products they provide are quite different than those provided five years ago. Most have adapted to a changing market by embracing technological innovations and making an investment in education and training.

The recent change of the National Burglar & Fire Alarm Association to its new moniker – the Electronic Security Association (ESA) – is a prime example of what has happened to the industry in the last decade. Recognizing that its members have evolved, the association realized that it also needed to evolve in order to encompass the broader scope of services and products provided by the membership.

We at Security America RRG are committed to staying at the forefront of change. As members become involved in new areas of the industry, our program expands to follow in their footsteps, maintaining the broad coverage, without major gaps or onerous exclusions, for our policyholders' operations.

So when you are considering Security America RRG to provide you with a quote for general liability and errors and omissions insurance, keep in mind that we insure companies engaged in a wide spectrum of services to commercial and residential consumers, including not only security, fire alarms and monitoring, but also video surveillance, access control, home theater, and other low-voltage operations. Our goal is to provide one comprehensive insurance program for your expanding business.

However, we still maintain the basic criteria to participate in the program such as the use of quality contracts and membership in ESA. This basic criteria gives us the ability to offer very competitive pricing to all Security America RRG policyholders.

**Security America RRG provides broad errors and omissions protection in conjunction with a tailored general liability insurance program to members of the ESA. The program is quite competitive, and we encourage you to obtain a quote. For additional information or to request a quote, please visit our website at [www.securityamericarrg.org](http://www.securityamericarrg.org) or call 1-866-315-3838 to speak with a representative.**
